

Findings and Learnings related to the Fernie Incident Investigation

Wednesday November 14th, 2018

This session will provide critical information to Operators, Managers and Directors responsible for recreation operations and/or refrigeration systems. There will also be time for participants to ask questions throughout the day.

The presentation will cover the following sections;

- Incident overview
- System design and failure
- Review safety orders from TSBC and WSBC and related recommendations
- Implementation of safety orders (roles/responsibilities), preventative maintenance strategies and life cycle planning.

Your presentation team is comprised of:

- Ian Welle P. Eng. Accent Refrigeration
- John Marcellus President, RFABC and Superintendent of Arena Services Regional District of Nanaimo
- Representatives from TSBC

Register through RSVP by November 9th to Mike Fetterer:

mfetterer@summerland.ca
