

Global Spectrum Facility Management (www.global-spectrum.com) requires an energetic, highly motivated and detailed orientated, customer-focused team player to become a **Facility Operator** at the Abbotsford Centre (www.abbotsfordcentre.ca), an 8500 seat multipurpose sports and entertainment facility in Abbotsford, British Columbia. This position is part time and comes with a competitive hourly rate.

The **Facility Operator** will be responsible for the preparation and maintenance of the ice surface, automated building controls, HVAC, assisting with the preventative maintenance programs, and general building repairs. Duties include, but are not limited to, the repair of machinery, performing preventive maintenance of HVAC and boiler systems and general equipment such as plumbing, electrical and refrigeration systems.

The ideal candidate will have strong interpersonal, computer and communication skills along with being able to work within a team environment. Minimum requirements include Refrigeration Operator Certificate or 5th Class Refrigeration Endorsement or 4th Class Power Engineering ticket is preferred.

This position can be physically demanding and evening and weekend shifts will be required. Your ability to work with minimum supervision, perform duties in a safe manner, and consistently demonstrates efficient, effective use of time and resources will ensure your success.

Please mail your cover letter and current resume to the attention of Andrew Nash, General Manager, Global Spectrum Facility Management, 33800 King Road, Abbotsford, BC, V2S 8H8, or email to anash@abbotsfordcentre.ca or fax to 604-743-5001.

We appreciate all applications; however, only those selected for an interview will be contacted.
